IMPROVE EFFICIENCY

When equipment makes the workflow more effective, it becomes easier to handle a higher volume in the same timeframe. With Swivel conveyor no time is wasted moving back and forth between the cargo and the conveyor. Parcels and packages can be efficiently unloaded or loaded - or both, as the belt direction is reversible.

CONFIGURED TO SUIT YOU'RE REQUIREMENTS

Model	Sections	Total length C(mm)	Retracted length A(mm)	Extension length B(mm)	Height(mm)	Belt width(mm)
A3-6+8	3	14000	6000	8000	800	600/800
A3-7+9.5		16500	7000	9500	800	600/800
A4-5+10	4	15000	5000	10000	900	600/800
A4-6+12		18000	6000	12000	900	600/800
A4-7+14		21000	7000	14000	900	600/800
A4-8+16		24000	8000	16000	900	600/800

Our new range offers ultimate flexibility as you can opt to have any functions you like with any model, regardless of size. The numerous combinations include traverse packages to mobilise the conveyor, operator platforms and lifting aids to further improve the ergonomics of the work environment. The telescopic conveyor is engineered as a single unit.
